

NESCBWI Workshop Level Continuum

Writers and illustrators all have different journeys as they evolve in their craft. The continuum above is intended to help workshop presenters level their proposal for the correct audience and for conference participants to choose workshops that are most appropriate for their current level. Presenters are encouraged to challenge their audience to achieve above their level. If you say your workshop is for "all" levels, you must address all levels throughout the presentation.

* Listed in the SCBWI Market Survey or the CWIM.
